

FASTCHARGE

ENVIRONMENTAL POLICY

“environmental progress is a key element in our mission to drive prosperity through HDEV charging solutions”

Our three environmental directional principles:

- Continually reduce life-cycle environmental impacts as an enabler for increased sustainability and customer success
- Demonstrate responsible care for the environment wherever we operate and build trust by adhering to our Supplier Code of Conduct (SCoC)
- Minimize resource use, emissions and waste and utilizing means within our sphere of influence to create change towards a circular economy and to further improve our competitiveness

Oslo, September 2024

Harald Grytten

CEO Fastcharge AS
